Savannah, Georgia 31402-0889

Dear Kathy:

The purpose of this letter is to provide approval for your proposed repairs to the weirs of Dredge Spoils Area #1 in the Terry Creek Site, located in Brunswick, Glynn County, Georgia.

The Agency understands that the weir repair encompasses replacement of the weir boards as specified in the Corp's workplan. The Agency also understands that work will be performed according to OSHA 1910.120 standards for Health and Safety.

Based on our recent conversations, the Agency understands that weir #3 is completely blocked and is no longer draining water off the Site. We concur that the best course of action will be to leave the weir as is, thus allowing stormwater to be drained through the remaining weirs.

It is anticipated that these repair actions will occur in early August.

Thank you for your cooperation

Respectfully,

A handwritten signature in black ink, appearing to read "Leo Francendese".
